

PASC Clubhouse Use Policy (November 2016)

PASC is happy to announce that it has secured a “Clubhouse space” at Cubberley. This space will be used for club meetings, tournament headquarters, storage, film study, and coaches meeting. The space is important to the future growth and stability of the club and offers us a home base for the future.

Use of the clubhouse will be strictly limited to club activities. Access to the clubhouse space will be limited to board sanctioned uses. Keys will be issued to limited club leadership. Individual team access to the space for team meetings and film study will be available through a signup sheet and upon permission of the directors. The PASC Safety Policy (see separate policy for additional details) will be strictly enforced while using the clubhouse:

- Players are not permitted in the clubhouse unless attending a team or club sanctioned event.
- In order to adhere to the Staff and Player Safety Practice: Staff, Coaches, and PASC representatives shall not be in the clubhouse alone with any player at any time.
- PASC members and coaches who violate the safety policies will have use privileges revoked.
